FITNESS COLLECTION 2026

WELCOME TO WERK IT

WERKIT SPORTS was founded in 2012 and is located in Nantong, Jiangsu Province, just two hours by car from Shanghai. After 10 years of dedicated development, our factory has established specialized departments including Product R&D, Design, International Trade, and Brand Business.

Our designs prioritize ergonomic health and keep pace with international trends. We are committed to providing customers with high-quality products at competitive prices. With over 1000 types of products sold across the United States, Europe, and Southeast Asia, our range includes yoga accessories, dumbbells, ankle/wrist weights, gym equipment, and various fitness goods.

Our products comply with international standards and hold certifications such as GS TÜV, CE, REACH, RoHS, and EN71/957. We continuously strive to enhance both product and service quality.

If you are interested in any of our products or would like to discuss a custom order, please feel free to get in touch. We look forward to building successful business relationships with new clients around the world.

The vibrating ball allows for bodyweight pressure and vibration technology to accelerate pain relief. By increasing circulation and breaking up scar tissue, your body will begin to feel the healing difference. The spherical designs allows you to dig deep into difficult to reach areas such as feet, calf muscles, IT band, glutes, lower back and shoulders.

- * A rehabilitative taping technique applied over muscles to reduce pain and inflammation, relax overused tired muscles and support muscles movement.
- * This taping is designed to improve the body's natural healing process by helping to increase blood flow around the muscle.
- * It is non-restrictive, allowing for a full range of motion; the wave pattern adhesive backing moves with the skin and muscles.

FOAM ROLLER WATER BOTTLE

Portable sports buckle, easy to carry, Dust-proof and concealable nozzle, one button to open.
Noise-free Straw: The noise-free straw extends all the way to the bottom, allowing you to drink the last drop of water without having to tilt your head back.
Functional EVA Roam: High-density and colorful EVA foam has excellent thermal insulated performance, sporty and shock-proof if falling on the ground carelessly.
Absolutely No Leaks or Sweating: Because of the high quality construction, you can leave it on a desk at work filled with ice cold water and not have to worry about it leaving a puddle of water or sweating.

Material: 304 stainless steel, EVA foam
Packing: Color box
Capacity: 500ML, 600ML, 750ML, 800ML, 1200ML

OB-86 OLYMPIC CERAKOTE BAR

The bar shaft is made from precision ground alloy steel. The special Cerakote—coating is a very thin-slightly transparent looking, matte ceramic coating, which can feel the direct contact with the pure steel and provides a secure grip. The coating has excellent resistance to corrosion and has low abrasion properties.
